Model 847 adjustable coil lifter

Model 5068- hand chain operated- low duty

A photograph of a large industrial facility, likely a steel mill or manufacturing plant. A red motorized coil grab, labeled "30 TON CAP.", is suspended from a yellow overhead crane. The grab is lifting a massive, shiny, cylindrical roll of metal. In the background, another similar roll is visible on a yellow stand. The scene is dimly lit with industrial lights. A black text box in the upper right corner contains the text "Model M5067 motorized coil grab".
